

STROBE-BRIK™

Conduit-end mounting, MB-008

For use with SB-002QD xenon or SB-010QD LED strobes

The MB-008 Conduit-end mounting system is rugged, simple, and very cost-effective. It provides for precise strobe positioning and easy installation using common conduit fittings. Strobes may be mounted indoors or outdoors using this system.

The conduit-end mounting system includes these conduit pieces:

- 1" X 3/4" reducing coupling
- 1" pipe nipple, 2" long
- 1" insulation bushing

For use with these strobes:

- SB-002QD xenon
- SB-010QD LED
