

STROBE-BRIK™

UHMW bracket, MB-011

For use with SB-003 xenon strobes

The MB-011 UHMW (ultra-high molecular weight) bracket is an especially rugged and flexible mounting system. The bracket is intended for use in submerged or similar harsh environments. The strobe may be secured anywhere along the strobe's body, providing for precise final adjustment. They are suitable for indoor or outdoor use.

For use with these strobes:

- SB-003 submersible-duty xenon strobe only
