

STROBE-BRIK™

Reflector Box

Multi-strobe reflective enclosure

Creating a special effect or custom application? Use the Strobe-Brik Reflector Box to make it possible!

Applications:

- Recessed floor or wall enclosure - strobes disappear into the surface when off, and provide maximum light output when flashing.
- Mounting surface for lightning strike stencil or arc effect - use any number of strobes to create your lightning effect.
- Protective housing for strobes required in harsh environments.

Custom housings or other configurations are available.
